

QuickProject Mobile App for iOS and Android

Easy day-to-day project management delivered on the go

QuickProject mobile application is designed for project managers and team members to enable anytime, anywhere time tracking, reporting and increase organization-wide user adoption.

It works on Microsoft Project Online and Microsoft Project Server installations and facilitates day-to-day project management activities with an easy interface for Android and iOS platforms.

Efficient management of work even on the go	Easy monitoring of projects with project and milestone views	Quick view of relevant work and status
Timely reminders to stay on track	Increased team interaction and productivity	Better project execution with task tracking

Quick access to timesheet, project tasks, and updates on Android or iOS mobiles

Team Manager/Timesheet Manager			Team Member		
Set Calendar Event	Submit Timesheet	View Team Timesheet	Timesheet Status update	Task status update	View Project & Task details
View Tasks/ Milestones	Timesheet Task Filter	View Project Plan	Timesheet Task Filter	Set Calendar Event	View Project Plan
