

# Innovate, grow, and save with Advaiya PPM solutions

Whether expansion, product development, or maintenance, in managing timeliness, costs and resources manufacturing industry faces some unique challenges, often with a lot at stake.

- Delivering high-quality products to market
- Collaborating with multiple stakeholders
- Meeting industry regulations
- Attaining strict time-to-market deadlines
- Securing the best-available resources
- Controlling unexpected bottlenecks and minimizing downtime
- Keeping up with increasing customer demands

Advaiya offers integrated solutions for Project Portfolio Management (PPM) which dramatically improves the way manufacturing organizations work, communicate, and collaborate. The solutions are designed to make you and your team more efficient and productive while increasing the PPM maturity.

Implement in weeks rather than months and enjoy seamless PPM practices that allow for increased productivity and faster innovation.

## The Advaiya PPM solutions

### Workshop for PPM envisioning and immersion

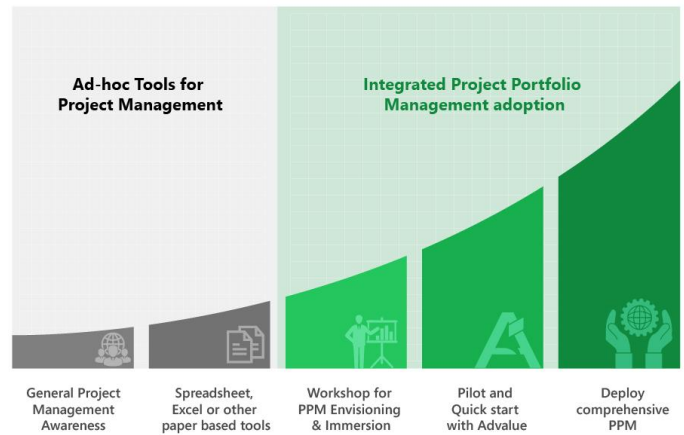

The workshop emphasizes the key aspects of PPM and help you understand your current PPM maturity, identify gaps, and formulate a strategic roadmap towards the successful PPM journey.

### AdValue

JumpStart your PPM journey and experience the potential of structured project and portfolio management with standardized processes and quick insight into project performance, health, and other useful information.

### Comprehensive PPM

Automate processes and bring your disparate Line-of-Business (LOB) systems together for better visibility and control over business demands, resources, and portfolio of projects to avoid unforeseen project delays.

### Benefits

- Know where all your projects stand
- Stay up-to-date with product development progress
- Manage resources and employee schedules
- Get complete visibility into operations
- Work smarter together and stay in control
- Track project's cost and timeliness
- Avoid unexpected risks and delays
